Are you unable to walk your dog or maybe just too busy?

Let me lighten your load by walking your best friend. This will help to keep your pet stimulated and healthy.

Is your pet lonely and bored because you are away from home or because you work long hours?

Just think how happy they would be if I could come round and give them lots of attention.

Do you hate imposing on friends and neighbours or dislike taking your pets away from their familiar surroundings?

I can visit once or twice a day so that they are taken care of in the comfort of their own home while you are away.

Please contact Abigail Dodkins **07580 834 007** to arrange a free, no obligation consultation to discuss your pet's needs and suitable options available.
